BUILT FOR PROPERTY OPERATIONS

Cleaner package operations. Less desk chaos. Better resident communication.

Rezanto helps building teams log deliveries, notify residents, track pickups, and maintain a reliable audit trail without spreadsheets, sticky notes, or inbox gymnastics.

- Fast intake and pickup workflows for front desk and concierge teams
- Email and SMS resident notifications with clear delivery records
- Reporting and visibility for managers overseeing one or more properties
- Simple pricing that works for individual buildings and growing portfolios

Why teams choose Rezanto

2–3 hrs
TYPICAL DAILY TIME SAVED FOR BUILDING STAFF

2,000+
RESIDENTIAL UNITS SUPPORTED

10x
AVERAGE ROI FROM REDUCED MANUAL WORK AND FEWER ERRORS

Founder-led, practical, and built around the real workflow problems property teams deal with every day.

CORE CAPABILITIES

1 Package logging and tracking
Record arrivals quickly, assign packages to units, and keep every delivery tied to a visible status history.

2 Resident notifications
Send email or SMS notifications so residents know when packages arrive and when reminders are needed.

3 Pickup confirmation and audit trail
Track pickups with timestamps and history so staff have fewer disputes and clearer accountability.

4 Portfolio-ready visibility
Support operations across multiple buildings with reporting and workflow consistency that scales.

WHAT'S INCLUDED

Core workflows, without the usual chaos

Every plan includes the operational tools building teams actually need to manage deliveries and pickups cleanly.

- Digital package logging
- Pickup status tracking
- Operational reporting
- Resident and unit records
- Audit trail and confirmations
- Email support

BUSINESS CASE

Rezanto is designed to reduce manual front-desk work, make resident communication more reliable, and give operators cleaner records when questions come up.

Faster
PACKAGE INTAKE AND PICKUP HANDLING

Cleaner
AUDIT TRAILS AND STATUS HISTORY

Better
RESIDENT COMMUNICATION AT SCALE

SIMPLE ANNUAL PRICING

EMAIL ONLY

$2.00

per unit / year

Minimum annual fee: $400 per property

Email notifications and core package management workflows included.

EMAIL + SMS

$3.50

per unit / year

Minimum annual fee: $400 per property

Adds SMS notifications for faster resident communication and fewer missed pickups.

All prices in CAD. Billed annually. Custom pricing available for larger portfolios and multi-property operators.

Low lift

EASY FOR STAFF TO ADOPT WITHOUT OVERCOMPLICATING DESK WORKFLOWS

Clearer

RESIDENT NOTIFICATIONS AND PICKUP RECORDS ARE MORE CONSISTENT AND TRACEABLE

Scalable

WORKS FOR A SINGLE PROPERTY TODAY AND LARGER PORTFOLIOS LATER

HOW IT WORKS

1

Log incoming packages

Staff record deliveries and assign them to the right unit with a clean digital workflow.

2

Notify residents

Residents receive email or SMS alerts when their package is ready for pickup.

3

Track pickup status

Desk teams can see what is waiting, what has been collected, and what needs follow-up.

4

Keep the record clean

Managers get clearer history, fewer disputes, and better visibility into operations.

BEST FIT

Where Rezanto works best

Residential buildings with front-desk package load: especially where staff are juggling resident communication manually.

Concierge and building operations teams: when consistency, speed, and visibility matter more than complicated feature bloat.

Portfolio operators: when you want a repeatable process across multiple sites instead of building-by-building improvisation.

NEXT STEP

Share the workflow. We'll show the fit.

If your building is handling increasing delivery volume, resident follow-up, and front-desk package chaos, Rezanto is built for exactly that mess.
